Sunday 4 December - Poster Allocation	
Creating a Healthier World/ Antimicrobial Resistance	
Paper Title A One Health approach to antimicrobial resistance surveillance: Is there abusiness case for it?	Author Mr Kevin Queenan
Capacity building in Biosecurity management: Gap analysis in Public Health and Veterinary Schools in sub-Saharan Africa	Prof Francis Ejobi
Sero-prevalence And Risk Factors Associated With Brucellosis Sero-positivity In Cattle, Goats And Humans In Makuutu Sub-	Prof Francis Ejobi
county, Iganga District, Uganda Experiences and Challenges of Antimicrobial Susceptibility Testing in @ganda	Prof Francis Ejobi
Situational Analysis of Antimicrobial Resistance Using the One Health Approach: A Case Study of Malawi	Prof Sabiha Essack
Adverse Birth Outcomes Among Women Exposed To Household Air Pollution: A Population-based Prospective Study In Odisha, India	Dr Bijaya K Padhi
Antimicrobial Resistant Escherichia coli in Rural Well Water Advancing Planetary Health in Australia – focus on emerging infections and antimicrobial resistance	Ms Kelsey McCarroll Dr Grant Hill-Cawthorne
Tackling the crisis of antimicrobial resistance – lessons learned from undertaking a One Health approach project	A/Prof Dale Dominey-Howes
Surveillance And Risk Communication Focused On "One Health": CEDESAP-REDesastres In The Sanitary Risk Reduction Strategy In Agricultural Sector.	Dr María Irian Percedo-Abreu
Sustainable production of chicken in the ecosystem of Barind in tropical Bangladesh	Prof Md.Akhtar-Uz-Zaman Zaman
Developing a One Health Institute in academia "bijak-antibiotik" Cadres: A Community Participation Model For Antimicrobial Resistance Prevention Program In Central Java	Miss Claire Tucker
Province, Indonesia	Dr Riana Arief
An Ecohealth Approach: Antibiotics Usage And Accessibility In Swine Farm In Central Java Province, Indonesia A protocol for a systematic literature review: Comparing the impact of seasonal and meteorological factors on acute	Dr Riana Arief
respiratory infections in Indigenous and non-Indigenous peoples The benefit of central nodes for EcoHealth networking among graduate students	Mrs Katherine Bishop-Williams Mrs Katherine Bishop-Williams
An EcoHealth framework for bridging the gap between research and practice through effective knowledge dissemination	·
	Mrs Katherine Bishop-Williams
	Mrs Katherine Bishop-Williams
A systematic review of attention restoration theory: can nature help you concentrate? Mapping the evidence: what has been studied about the linkages between nature conservation and human health and	Dr Ruth Garside
wellbeing? Promoting dog and reducing dog-related human health issues in Nunavik by combining One Health and EcoHealth	Dr Ruth Garside
approaches	Dr Andre Ravel
Canaries in the bird cage: Snake envenomation events in domestic dogs and cats as an indicator of snake bite risk in humans	Prof Mark Stevenson
Exploring The Emergence Of Chikungunya Virus In The Adult Population Of Grenada	Dr Satesh Bidaisee
Effectiveness Of Stray Dog Control And Zoonotic Disease Prevention In Global Health: A One Health Approach From Grenada	Dr Satesh Bidaisee
Assessment Of Epidemiology Capacity In One Health Team At Provincial Level In Thailand Expanding the environmental agenda of Health in Australia	Dr Soawapak Hinjoy Dr Ro McFarlane
Human Outdoor Defecation And Time-spatial Patterns Of Human Activity In Endemic Area Of Liver Fluke In Savannakhet	Dr Hongwei Jiang
Province, Lao Pdr A Community Participatory Intervention Model To Reduce The Health Risks From Biogas Wastewater In Hanam Province, Vietnam	Mr Quoc-Toan Luu
One Health Actions in a small nation of Bhutan: Sharing its experiences One Health in Action: One Health at Work in Bangladesh	Dr Sithar Dorjee Prof Nitish C Debnath
An Economic Impact and Policy Evaluation of Animal Disease Outbreaks in Thailand	Dr Charuk Singhapreecha
Health and the Key International Global Agreements — Opportunities to improve population health in the face of environmental change	Dr Kathryn Bowen
	Ms Kimberly Brown
Feasibility And Suitability Study To Establish And Promote Swine Production Zone In Nakhon Pathom Province Of Thailand	Dr Thanis Damrongwatanapokin
Practical One Health Implementation in Community: Lesson Learned from PODDproject in Chiang Mai, Thailand	Dr Terdsak Yano
Adaptation Of The European Legislation On Epidemiological Surveillance In Ukraine One Health ethics: The need for institutional policy to govern research and action	Prof Iryna Kolesnikova Dr Tarni Cooper
Development Of One Health Core Competency Domains: Capacity-building Platform For Thai Current Workforce	Dr Saengduen Moonsom
Barriers for capacity building of environmental health management	Mrs Nathalie Abrahams
International Partnerships for Building a One-Healthier Community in Baja California Sur, Mexico One Health and Eco-Health Research and Capacity Strengthening: Perspectives from the Special Programme for Research	Dr Bruno Sobral
and Training in Tropical Diseases (TDR)	Dr Johannes Sommerfeld
Beyond and Between Ecohealth and One health The Prevalence Of Methicillin-resistant Staphylococcus Aureus (Mrsa) Isolated From Domestic Dogs And Raw Bovine Milk In	Dr Peter W Tait
The MorogoroMunicipality, Tanzania	Dr Huruma Tuntufye
Association between air pollution and respiratory symptoms in children in Ulaanbaatar, Mongolia 2015 Perpetuating Chemical Pollution through University Curricula	Ms Dambajamts Enkh-Undraa Dr Manuel Vallee
Communicating One Health to Public	Dr Anna Lindberg Dr Clement Meseko
Food safety risks associated with persistent circulation of highly pathogenic avian influenza in Nigeria Quantitative Relative Risk Characterization of Campylobacter Contaminationin Chicken Meat from Formal and Informal	Dr Ihab Habib
Urban Markets in Alexandria, Egypt Minding the Gap on Campylobacter Epidemiology and the Public Health Risk in Developing Countries: The Model of the	
Australian-Swedish Collaborative Research Project in Egypt Prioritization of Human-Swing Reverse Zooposes Relevant to the Rig Industry in Australia: A Weighted Multi-Criteria	Dr Ihab Habib
Approach Food Safety Control in the Fresh Produce Ecosystem in Kenya: A System Approach Integrating Microbial Assessment	Dr Ihab Habib
Scheme and Statistical Modelling	Dr Ihab Habib
Developing a global food security programme that values animal welfare The Epidemiology Of Esbl/ Ampc Genes And Plasmids In Human, Animal And Environmental Reservoirs: A Meta-analysis	Mr Mark Bryan Dr Alejandro Dorado-Garcia
What's In Your Chicken Rice? Characterising Food Supply Networks To Improve Food Safety In Singapore	Mrs Marina Binti Zahari
Whole genome based comparison of Escherichia coli O26 serogroup isolates from New Zealand dairy calves	Dr Springer Browne
The prevalence of brucellosis in ruminants in Armenia, 2010-2015 POLYMORPHISM & Sequence analysis of Prion Protein Gene of Pakistani Goat Breeds	Mr Tigran Yesayan Dr Mohammad Farooque Hassan
Nature Connection And Psychological Wellbeing: Exploring Potential Mechanisms	Ms Anne Cleary
Effectiveness of Urban Nature Interventions in Contributing Towards Healthy Cities and Healthy Communities Capacity building in Northern Uganda: improving health through intervention at the livestock-human interface using a One	Ms Anne Cleary Dr Katherine Fogelberg
Health approach Positive Changes In KAP Of Rural Women On Srh Through Awareness Raising Programmes	Dr Prabesh Bikram Singh
i ositive changes in two or tarai women on sin milough Awareness talsing riogrammes	por readour bilitain biligii

Global Health True Leaders: Strengthening Interprofessional Collaboration Among One Health Workforce Through	
International Leadership Training Series	Prof Wiku Adisasmito
Global urban thinking for ecohealth Examining farm safety of the Australian farmers	Dr Rebecca Patrick Dr Muhammad Aziz Rahman
Texas A&M University One Health Initative: Five Easy Steps to an Interdisciplinary Approach	Prof Heather Moberly
BeneFISHiary: An ecologically-conscious phone "app" to improve community knowledge of the risks and benefits of fish consumption during pregnancy	Dr Catherine Pirkle
Soils Health And Agriculture Sustainability In Argentina: Nutrients Metabolism And Socio-ecological Trade-offs	Mr Diego Diaz de Astarloa
Prevalence and Antimicrobial Susceptibility of Salmonella and Escherichia coli in retial chicken from small scale shops in kandy disctrict, Sri Lanka	Prof Preeni Abeynayake
Grow where you've never grown before!	Miss Lindsey Vold
A place to cook: a scoping review Engendering Ecohealth	Miss Lindsey Vold Dr Brigitte Bagnol
Gender, Race, Poverty And Nutrition	Dr Brigitte Bagnol
Treatment of human and animal helminth infections at Lake Chad: awareness, access, common practice and content of active ingredient in available drugs	Dr Lisa Crump
Seasonal Dynamics and Environmental Determinants of Retinol Status in Chadian Mobile Pastoralists Creating an Urban Agriculture Action Plan	Dr Lisa Crump Ms Lindsey Wagner
Do yearlong health and management interventions for village chickens in Myanmar influence farmers' knowledge and perceptions on the prevention of poultry diseases?	Dr Joerg Henning
Intersectoral municipal leadership for an EcoHealth based interventions for prevention and control of public hyealth priorities in Latin America	Dr Gabriel Carrasquilla
Intersectoral Municipal Leadership for EcoHealth based interventions for prevention of Obesity and Diabetes in the Municipality of Soraca, Boyaca, Colombia	Dr Gabriel Carrasquilla
A National Strategy for Climate, Health and Well-being	Mrs Carol Behne
Agronomic Bio-fortification: A Missing Link In Alleviating Dietary Micronutrient Deficiencies In Southern Africa?	Ms Muneta Grace Manzeke
Ecohealth And The Nexus Between Disease And Food Security A model to estimate the impacts of future agricultural production scenarios on human health associated with micronutrient	A/Prof Robyn Alders Mr Adnan Choudhury
intake Nutrition-consitive agriculture activities package	,
Nutrition-sensitive agriculture activities package Fostering community resilience through conservation and economic opportunities in the YUS Conservation Area	Ms Chisela Kaliwile Ms Mikal Nolan
Wildlife Disease Surveillance In Sri Lanka: First Results From The Sri Lanka Wildlife Health Centre	Dr Salika Perera
Seasonal variation of climate and tsetse fly species abundance in the Maasai Steppe, Tanzania	Ms Happiness Nnko
One Health And Infectious Diseases In High Latitudes: Emerging Threats Or Old Problems? Behaviour Change In Commercial Poultry Farmers In Indonesia Has Improved Animal And Human Health.	A/Prof Carlos Neves Mr Alfred Kompudu
Framework and Core Competencies for Action-based Research for Wildlife Health	Dr Luis Cruz-Martinez
Ausvetplan – Incorporating A One Health Approach Into The Australian Veterinary Emergency Plan	Dr Francette Geraghty-Dusan
Bacteriophages against Francisella tularensis SACIDS TechnoHealth Innovation Laboratory to support One Health disease surveillance in East and Southern Africa	Dr Mzia Kutateladze Prof Esron Karimuribo
Time to Disease Detection Development of an online course for future one health workforces in emerging and re-emerging zoonotic diseases	Dr Moe Ko OO Dr Rutch Khattiya
Strengthening of Regional Laboratory Networks in South East Asia through Proficiency Testing and External Quality	,
Assurance	Dr Gemma Carlile
A comparison of homogeneity and stability of proficiency testing samples: frozen liquid or lyophilised? Pets, purity and pollution: why conventional models of disease do not work for pet rat owners	Ms Mai Hlaing Loh Miss Charlotte Robin
Science-based Approaches For Transparent And Accelerated Development, Validation And Monitoring Of Diagnostic Tests For Infectious Diseases And Their Purpose-oriented Application: Adapting Limited Diagnostic Solutions In A Complex	Dr Axel Colling
Evolving Micro-cosmos Emerging Infectious Diseases: How Can Probabilities For Predicting Spill-overs Be Enhanced?	Dr Axel Colling
Setting research priorities to control zoonoses in smallholder dairy farms of periurban India	Dr Manish Kakkar
The Role of Veterinarians in Integrating Zoonotic Disease Management in Ghana	Miss Sophie Valeix
Veterinary Public Health Is One Health! One Health And Systems Thinking - How The Complexity Of Zoonotic Diseases Requires A Multidisciplinary Approach For	Prof Stan Fenwick Prof Stan Fenwick
Control Control Of Food-borne Diseases – The Need For A One Health Approach	Prof Stan Fenwick
Vietnam - One Heath Approach in Emerging Infectious Diseases Prevention and Control	Dr Oanh Kim
A Luminex-based multiplex assay for the simultaneous detection of glycoprotein specific antibodies to ebolaviruses, marburgviruses, and henipaviruses	Mr Eric Laing
Distribution characteristics of Invasive alien plants in Jeju Island	Dr Nam Young Kim
Detecting Hidden disease in the UK cattle network; unexpected mortality as a tool for identifying and tracking unreported syndromes.	Prof Dirk Pfeiffer
Is One Health A One-size Fits All? Critical Reflections On One Health In Dynamic Pastoralist Settings In Africa	Miss Violet Barasa
Developing local disease identification and surveillance capacities through ZCAs Zoonotic Pathogens In Free Ranging Wild Mammals In Sri Lanka	Dr Javed Khan Dr Vijitha Perera
Sustaining regional animal and human health cooperation: a case study on the application of a One Health approach in ASEAN	Dr Kachen Wongsathapornchai
Strengthening disease intelligence through One Health field epidemiology capacity development Urbanisation and disease emergence: dynamics at the wildlife-livestock-human interface	Dr Kachen Wongsathapornchai Mr James Hassell
One Health research possibility in Nepal	Mr Dibesh Karmacharya
Biodiversity for Food and Nutrition: Edible Wild Species, Wild Mushrooms and underutilized species of Turkey	Dr Nese Adanacioglu
An early warning system derived from the spatial analysis of Aedes vector populations, dengue cases and rubber plantation areas: A case study in northeastern Thailand.	Dr Chitti Chansang
Modelling the risk of Japanese encephalitis human infection in a urban area of Cambodia Managing infectious cattle abortion at wildlife-livestock-human interfaces of the SE Lowveld of Zimbabwe: The need for a	Dr Michel de Garine-Wichatitsky
multidisciplinary approach Bridge Hosts, A Missing Link For Disease Ecology In Multi-host Systems	Dr Michel de Garine-Wichatitsky Dr Michel de Garine-Wichatitsky
National Incursion Management Standard: The potential to adapt the HACCP model to manage incursions in Australia	Ms Michelle Christy
Modelling habitat suitability and connectivity of feral pigs for exotic disease surveillance in northern Australia	Mr Jens G Froese
One Health Studies Of Pig Associated Zoonoses In Smallholder Pig Production In Lao Pdr	Dr Phouth Inthavong
Domestic Dogs As An Invasive Species: Exploring Human Dimensions In Order To Protect Wildlife Conservation, Human Health And Animal Welfare	Dr Francisca Astorga
Managing Risk in Poultry Production and Live Bird Marketing: What Works and Why?	Mr Leslie Sims

Monday 5 December - Poster AllocationFood, land and water systems/ Communication/ Rabies

Food, land and water systems/ Communication/ Rabies	
Paper Title	Author
The development of a One Health curriculum for universities in Vietnam	Dr Phuc Pham-Duc
i i i	Dr Phuc Pham-Duc
	Dr Nese Adanacioglu
	Dr Hakan Adanacioglu Mr Bryan Ybanez
Evidence based design and the socio-ecological determinants of health: Findings from user experiences accessing hospital gardens in	
Australia	Dr Rebecca Patrick
	Dr Rebecca Patrick
	Dr Joanita Bendita da Costa Jong
	Ms Chinyere Esther Onyia Dr Nihal Pushpakumara Don
· · · · · · · · · · · · · · · · · · ·	Bamunusinghage
	Dr Nihal Pushpakumara Don
Molecular Characterization of MRSA in Pigs, Farm Employees and the Farm Environment in Selected Areas of Sri Lanka	Bamunusinghage
Evaluation of Surveillance System of Severe Acute Respiratory Infections of Indonesia (SIBI), 2015	Mr Agus Heri Setiawan
Antimicrobial Resistance Profile Of Enterobacteriaceae Isolated From Children Under 2 Years Of Age In Peri-urban Lima, Peru	Mr David Durand
Survival Of Salmonella And Fecal Indicator Bacteria In Small-scale Biogas Units In Vietnamese Pig Farms	Ms Huong Luu Quynh
	Dr Neveen Hassanin
	Dr Harjeet Maan
Effects of Transfermally Delivered Insulin on some selected Metabolic Parameters of Streptozotocin-Induced Diabetic male Sprague-	Dr Silindile Hadebe
Dawley rats	51 Similare Hadese
Socio-economic determinants of manure management practices and risk behaviours among urban and peri-urban livestock-keepers in	Ms Gunilla Ström
Cambodia Programs to improve food security in rural Nicaragua. Using poultry as a model	Dr Rodrigo Gallardo
	Dr David Hadrill
Are Surveillance Systems Telling Us The Truth? An Information Theoretic Model For Evaluating Public Health Data Quality. An Application	Dr Ana Riviere Cinnamond
For 2010 Haiti Cholera Outbreak.	And Niviere Chinaliona
Is there a business-case for One Health? The Network for Evaluation of One Health (NEOH) can provide a price tag on One Health work.	Mrs Eva Haxton
Action Plan For Antibiotic Reduction In Livestock Production In Vietnam.	Mrs Ngan Giang Vo
	Mrs Ngan GIANG Vo
Instructional Design: A Key Tool in One Health Workforce Transformation	Ms Winnie Bikaako
	Dr Jessy Joseph
	Dr Jessy Joseph
	Mr Sahibzada Shafiullah
	Dr Ayaka Shima Mr Cameron Reid
	Dr Mohammed Samad
	Dr Jaswinder Singh
The effects of climate change on the harvesting and availability of mopani worms.	Prof Fhumulani Mavis Mulaudzi
Combining climate data with drought declarations to create a definition of drought for human wellbeing research.	Mr Ivan Hanigan
Demystifying The Pathways Of Impact Of A Livestock Health And Transfer Program On Household Resilience And Food Security In Malawi	Dr Jennifer Lane
Newcastle Disease Vaccination and Husbandry Practices in Village Chickens in Central Malawi	Dr Jennifer Lane
	Dr Jennifer Lane
Prevalence of TB Infection in a cohort of cattle thAt enters the food chain in Accra, Ghana using Bovigam	A/Prof Kennedy Kwasi Addo
	Prof Tokuma Yanai
	Mr Alistair Legione
	Dr Debbie Eagles
Village Chickens, Household Income And Food Security In Timor-leste	Dr Johanna Wong
	Dr Tapendra Prasad Bohara Prof Arve Lee Willingham
	Mr Yaovi Mahuton Gildas Hounmanou
, , , , , , , , , , , , , , , , , , , ,	Mr Yaovi Mahuton Gildas Hounmanou
	Dr Henrik Lerner
	Prof Hein Mallee
	A/Prof Simon Reid Dr Peter Rabinowitz
	Dr Peter Rabinowitz
Spatial and temporal risk factors for sporadic Salmonella cases.	Miss Kelly Simpson
Increasing the One Health Impact in University Institutions by integrating One Health Core Competencies into University curricula in East	Dr Janetrix Hellen Amuguni
and Central Africa: OHCEAS One Health Module development process.	<u>-</u>
	Mr Jaime Paneque-Gálvez Dr Lisa B Adams
	Dr Jackie Benschop
	Dr Aurelie Binot
One Health Approach: Introduction course among future One Health Workforce in Beranang Community Training Center, National	A/Prof Rozita Hod
University of Malaysia.	•
One Health-Whose Health is It Anyway? Antimicrobial Posictance Burden By Main Enteric Pactoria In Eact Africa: A One Health Approach In The Containment	Dr Zohar Lederman
Antimicrobial Resistance Burden By Main Enteric Bacteria In East Africa: A One Health Approach In The Containment Food Nutrition Constraints Among Under Five Years Children And Pregnant Mothers In Rural Kenya	Prof Eric Mitema Prof Eric Mitema
	Dr Victoria (Tiggy) Grillo
Using A One Health Framework To Promote Food And Nutrition Security In United Arab Emirates (Dubai)	Mr Sayed Alhashmi
Using Interdisciplinary Literature Searching Promotes a One Health Approach in Research and Practice	Prof Esther Carrigan
Australia's zoos and veterinary clinics contribute to One Health through the national wildlife disease surveillance system	Dr Victoria (Tiggy) Grillo
	Prof Justin Masumu
State-wide wildlife health surveillance based at a veterinary faculty. Sink surveillance: joint Animal-Human Health environmental surveillance method to detect avian influenza viruses in live bird markets in	Ms Pam Whiteley
Dhaka, Bangladesh	Dr Eric Brum
	Du Fide Burne
One Health in Action: development of a multi-sectoral mass dog vaccination program for improved rabies control in Dhaka, Bangladesh	Dr Eric Brum
,	Mr Irwin Chavez
Working Better Together: One Health Approach For Understanding The Value And Challenges Of Inter-agencies Partnerships	A/Prof Hidayatulfathi Othman
	Dr Peter Rabinowitz
Outbreak of Tularemia Related to Contaminated Well in the region Västra Götaland – first time Successful Proving of F. tularensis by PCR	Dr Tara Wahab
and Culture from Water. Breaking socio-cultural barriers of Ebola virus disease through appropriate communication strategies	Miss Florence Ngolole
